WHY NOURISH?

You've heard for ages that you need to hydrate and moisturize your skin. But why stop at making your skin silky soft when you can nourish it too? Nourishing your skin with vitamins, antioxidants and emollients not only moisturizes the surface, it feeds your skin to help stimulate cell regeneration, as well as fight free radical damage and exposure to the elements.

Maximize your skin revitalizing efforts with these other Skincents products:

- *Balancing Body Cleanser*
- *Exfoliating Body Scrub*

Directions: Rub generously all over body after Waiora's *Balancing Body Cleanser* or *Exfoliating Body Scrub*, or whenever your skin needs a hydrating treatment. For optimal results, also apply liberally before bedtime. Daily use supports revitalization and relief of dry, cracked skin and may help alleviate other age-related skin challenges.
